

NATIONAL SUN YAT-SEN UNIVERSITY

College of Engineering Institute of Communications Engineering Regulations of Master's Degree Examinations for Postgraduate Students

Applicable to Students Starting in School Year 110

Approved by the 3rd Institute General Meeting on November 29, 2002, School Year 91.

Amended and approved by the 1st College of Engineering General Meeting on January 7, 2003, School Year 91. Amended and approved by the 7th Institute General Meeting on May 20, 2008, School Year 96.

Amended and approved by the 3rd College of Engineering General Meeting on June 10, 2008, School Year 96.

Amended and approved by the 5th Joint Department and Institute General Meeting on February 25, 2011, School Year 99. Amended and approved by the 3rd College of Engineering General Meeting on March 9, 2011, School Year 99.

Amended and approved by the 9th Joint Department and Institute General Meeting on June 17, 2011, School Year 99. Amended and approved by the 5th College of Engineering General Meeting on June 23, 2011, School Year 99.

Amended and approved by the 2nd Department and Institute Academic Affairs Committee Meeting on November 5, 2012, School Year 101.

Amended and approved by the 5th Joint Department and Institute General Meeting on January 4, 2013, School Year 101. Amended and approved by the 2nd College of Engineering General Meeting on March 5, 2013, School Year 101.

Amended and approved by the 2nd Joint Department and Institute General Meeting on December 7, 2018, School Year 107.

Amended and approved by the 3rd College of Engineering General Meeting on March 28, 2019, School Year 107.

Amended and approved by the 4th Joint Department and Institute General Meeting on November 29, 2019, School Year 108.

Amended and approved by the 3rd College of Engineering General Meeting on May 25, 2020, School Year 108.

Amended and approved by the 9th Joint Department and Institute General Meeting on April 30, 2021, School Year 109.

Amended and approved by the 2nd College of Engineering General Meeting on July 19, 2021, School Year 109.

I. This set of regulations is issued based on the Ministry of the Education Degree Conferral Law and its enforcement rules, "Academic Regulations" of National Sun Yat-sen University (NSYSU), and "NSYSU Enforcement Rules of Postgraduate Students Degree Examinations."

II. Relevant items during degree studying periods:

A. Degree studying periods: One to four years in accordance with regulations of the Ministry of Education (periods of student status retention and suspensions not included).

B. Crediting and course criteria:

1. All course selections by students shall be approved by advisors.

2. After entry to a master's degree program and within the studying period, a master's student shall complete the minimum required graduating credits in accordance with the institute's regulations. At most 6 credits of elective project courses may be accounted for the minimum graduating credits. The minimum graduating credits shall include credits of at least two core courses of fundamental sciences. (A student may select courses of other groups. Please refer to Attachment A for the "Table of Core Courses of Fundamental Sciences for Each Group").

3. Eligible graduate students of the master's degree program who are recommended to go abroad for the exchange student program, research or the dual degree program can waive the "Seminar" course required for the semester once the period of going abroad is more than six weeks. This regulation was made retrospective.

C. Selection and assignment of supervisors

Selection and assignment of supervisors shall be processed in accordance with the Department of Electrical Engineering and Institute of Communications Engineering's "Regulations for Master's Student Recruitment of Faculty Members and Supervisor Selection and Variation of Master's Students."

III. Master's degree examinations

Definition of semesters: The first semester starts on August 1 of each year and ends on January 31 of the next year; and the second semester starts on February 1 of each year and ends on July 31 of the same year.

- A. A postgraduate student may apply for and participate in a degree examination by the NSYSU-specified deadline once he/she has completed a thesis and is recommended by his/her supervisor.
- B. The thesis needs to be compared with the originality system, and the first draft of the thesis and the original comparison result must be sent to the degree examination committee one week before the degree examination.
- C. A student who fails the degree examination and has not yet completed his/her studying period may re-sit the exam in the next semester or school year. Each student may only re-sit the exam once. Students who fail the re-sits shall face expulsion in accordance with NSYSU's regulations.

IV. Graduation:

- A. Students must provide the proof of plagiarism check when submitting the final draft of the thesis.
- B. It is suggested that the plagiarism check be completed through the thesis originality comparison system of National Sun Yat-Sen University in the same year. Excluding introductions, references, catalogs, attachments, etc., the thesis originality comparison index should not exceed 12%. Those who exceed it can be passed after get the advisor's no plagiarism confirmation and signature.
- C. When graduate students apply for leave school, they need to submit "Originality Comparison Report" of the thesis and "Statement of the Postgraduate Degree Thesis for compliance with Academic Research Ethics", which shall be signed by the advisor. After passing the review of the institute, graduate students can process leaving school.

Students who meet aforementioned criteria may apply for graduation.

- V. The present regulations shall be implemented following approvals of joint department and institute general meetings and college general meetings, as well as the authorization of the president. The same procedure shall be carried out when amendments are to be made.

Institute of Communications Engineering

Table of Core Course of Fundamental Sciences for Each Group

Group	Core Course 1	Core Course 2	Core Course 3
System Group	Random Process	Digital Signal Processing	Digital Communications
EM-Wave Group	Electromagnetic Theory	Planar Antenna Design	RF Communication Circuit Design

For student admitted in School Year 97 and after, at least two core courses of fundamental sciences shall be included in the minimum graduating credits. (Cross-group selection of courses is allowed).
